- Create rural hospital add-ons to the outpatient hospital imaging services fee schedule
Preserving Trauma Care Funding

- **Legislation authored to repeal and alter DRP**
- Sen. Rodney Ellis (D-Houston) authored SB 93 to repeal DRP without proposing an alternative source of trauma care funding
- Sen. Kirk Watson (D-Austin), Rep. Sylvester Turner (D-Houston), and Sen. Chuy Hinojosa (D-McAllen) proposed bills that would alter how DRP is administered while preserving some trauma funding
- Continue engaging lawmakers and others on importance of DRP to funding trauma care in Texas

• The supplemental provider payments to hospitals and physicians made in November and December 2011 under the Medicaid State plan in the amount of $466,091,028 will be considered as if they were payments under this Demonstration, and will be included in the budget neutrality test, and the amount available as payment from the UC Pool.

HHSC DSRIP Principles

• Further incentivize transformation
• Maintain program flexibility
• Integrate with Texas Medicaid managed care quality strategies
• Streamline and lesson administrative burden
• Improve project-level evaluation
• Support the healthcare safety net for Medicaid and low income uninsured Texans
New Federal DSRIP Attributes

- Have all-or-nothing payment (instead of partial payment)
- Require participating providers to submit project budgets.
- Require providers to report at a high level how incentive payments are spent.
- Use attribution models to assign a large portion of the state’s low-income patients to specific participating providers
- Emphasize the importance of sustainability after quality improvements are achieved
Performance Bonus Pool

• HHSC proposes to set aside 5-10% of each provider’s total DY 6 valuation to lay the groundwork for the performance bonus pool (PBP) that will reward high performing regions from DY 7 onward

• Providers will be paid in DY 6 based on regional agreement on, and selection of, the region’s shared performance measures
Create Statewide Reporting Hub

Collect HL7-ADT information for all emergency room patients from hospitals

Match the HL7-ADT data collected to Medicaid patient eligibility rolls

Report the matched Medicaid data to Medicaid Managed Care Organizations

Implement the program by December, 2017

Require UC or DSRIP hospitals to provide ER HL7-ADT data to a HIE or to the State

Influence Medicaid MCOs to use the information to better manage care for their members
Waiver Budget Neutrality FY2017-21

• NAIP = $3.9B -- FY2017-21

• NF UPL=MPAP=QIPP=$3.9B
NETWORK ACCESS IMPROVEMENT PROGRAM

- Public Hospitals and health-related institutions
- Existing Medicaid managed care structure
- Costs incorporated into MCO capitation rate
- MCOs develop and implement provider incentive programs with hospitals and HRIs
Quality Incentive Payment Program

- The Texas Legislature directed HHSC to base payments through the QIPP upon improvements in quality and innovation in the provision of nursing facility services:
  - Culture change
  - Small house models
  - Staffing enhancements
  - Improved quality of care and life for nursing facility resident
